

3-year Postdoc position

We are seeking a highly motivated **Postdoctoral fellow** to join the Zebrafish developmental neurobiology research group led by Dr Savani Anbalagan at the Adam Mickiewicz University, Poznań, Poland.

In mammals, neurohypophysis (NH) is a major CNS neuroendocrine organ that regulates peripheral body functions ranging from milk let-down to water retention. How hypothalamic axons reach NH and create synapses to enable NH function is relatively understudied. The project will take advantage of the genetic amenability of zebrafish and optical transparency to understand how NH-derived signals (secreted factors and microRNAs) can regulate NH development. Using our recently developed CRISPR mutants and transgenic fish lines, we will address these questions. We will use advanced light microscopy techniques for characterizing the phenotypes.

Requirements:

- PhD in life science field awarded **on or after 2016*** or recently defended PhD thesis.
- High motivation, initiative, enthusiasm, and readiness to learn new skills
- Hands-on experience in molecular biology and/or biochemistry.
- Experience in zebrafish and/or confocal microscopy is welcome.

We offer:

- Supportive environment, 3-year funded position with access to state-of-the-art facilities
- Fixed-term employment contract for full 3 years (after initial probation period).
- Monthly **net** salary 5,300 – 6,000 PLN
- **Employee benefits** including 13th salary, holiday bonus, child care benefits (financial and maternal/paternal leave), support for accommodation in university residence premises, discounts for university gym, swimming pool and free Polish courses.

How to apply:

- Interested candidates should e-mail the following documents to Dr Savani Anbalagan savanb@amu.edu.pl
 - motivation letter
 - CV with educational details and scientific achievements
 - List of publications or preprints
 - PhD diploma or certificate of PhD qualification after thesis defense
 - Name and Email ID of two academic referees

Application deadline: 15th July 2022, extended until suitable candidate is recruited.

More info: Institute: <http://ibmib.amu.edu.pl/en/main-page/> | Anbalagan et al., Elife 2019 <https://doi.org/10.7554/eLife.45650> | Lab: <https://zfin.org/ZDB-LAB-210827-1>

Please add **signed** consent clause in your application: "I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation)."
