

Developmental Mechanics: forcing cells into shape in health and disease

12-14 February 2024 | Tel Aviv University, Israel

Organizers

Ronen Zaidel-Bar

Tel Aviv University

**Rodrigo Fernandez-
Gonzalez**

University of Toronto

Haguy Wolfenson

Technion - Israel Institute of
Technology

Hava Gil-Henn

Bar Ilan University

Application

**Abstract submission
deadline:** December 12,
2024

Application deadline:
January 12, 2024

Contact

Ronen Zaidel-Bar

zaidelbar@tauex.tau.ac.il

Speakers

Ronen Alon

Weizmann Institute

Christoph Ballestrem

University of Manchester

**Smadar Ben-Tabou
de-Leon**

Haifa University

Maté Biro

EMBL Australia

Ashley Bruce

University of Toronto

Danelle Devenport

Princeton University

Natalie Dye

Technical University
Dresden

**Rodrigo Fernandez
Gonzalez**

University of Toronto

Hava Gil-Henn

Bar Ilan University

Jerome Gros

Institut Pasteur

Chen Luxenburg

Tel Aviv University

Roberto Mayor

University College London

Caren Norden

Instituto Gulbenkian Ciência

Nicolas Plachta

University of Pennsylvania

Tom Schultheiss

Technion - Israel Institute
of Technology

Tom Shemesh

Technion - Israel Institute
of Technology

David Sprinzak

Tel Aviv University

Yusuke Toyama

National University of
Singapore

Shelly Tzlil

Technion - Israel Institute
of Technology

Talila Volk

Weizmann Institute

Haguy Wolfenson

Technion - Israel Institute
of Technology

Ronen Zaidel-Bar

Tel Aviv University

Assaf Zaritsky

Ben Gurion University

Eli Zelzer

Weizmann Institute

Assaf Zemel

Hebrew University of Jerusalem

Topics

- Cell migration
- Cytoskeletal dynamics in embryogenesis
- Mechanobiology of disease
- Cell adhesion dynamics in morphogenesis
- Mechanosensing
- Mechanochemical patterning
