
Diaz Cuadros Laboratory

Postdoctoral Fellow Opportunity

Join us!

A fully-funded postdoctoral fellow position is available in the Diaz Cuadros laboratory at Massachusetts General Hospital/Harvard Medical School. The selected candidate will advance our efforts to understand the genetic basis of developmental speed using the nematode *Caenorhabditis elegans* in combination with mammalian stem cell models. The ideal candidate has previous experience working with *C. elegans*, timelapse microscopy, or quantitative genetics.

What we offer:

- A competitive salary commensurate with high cost of living in the Boston area
- Curiosity-driven science in a supportive and diverse environment
- Strong commitment to mentorship and career development, with individual mentorship plan tailored to your future goals
- A vibrant scientific community in the Molecular Biology department at Massachusetts General Hospital and Harvard Medical School

Check out our lab website for more information: www.diazcuadroslab.org

To apply, please send your CV and a cover letter detailing your research interests and career goals to Margarete: diazcuadros@molbio.mgh.harvard.edu
